

AHIA

ADVANCING HEALTHCARE INNOVATION IN AFRICA

INVITATION TO APPLY 3rd ANNUAL AHIA CONFERENCE JULY 9-11, 2018

WHAT DOES AHIA DO?

AHIA's mission is to support and promote the advancement of health innovation and technologies in Africa by advising, educating, and training African scientists in the business and legal aspects of the healthcare sector.

WHAT CAN WE DO TOGETHER?

AHIA is a multi-phase program that consists of a three-day summer conference with ongoing advice from leading professionals in science, business, and law. We will form teams to create development plans for each of the participating technologies. Selected scientists from the conference will receive ongoing advice to help transition their innovations from the laboratory to market.

WHO SHOULD APPLY?

African scientists that have innovative solutions that potentially address current healthcare problems. Participating scientists will receive a travel stipend (hotel and flights are covered).
