1. **Funding**

Research and training fellowships are funded by the Government of Australia.

2. **Identification**

BIO Ventures for Global Health (BVGH) identifies host laboratories and qualified scientists from WIPO Re:Search Member organizations.

3. **Match**

Based on mutual interest, BVGH matches hosts and fellows and supports their design of a research and training project.

4. **Logistics**

The World Intellectual Property Organization (WIPO) coordinates fellowship logistics and tracks progress.

5. **Collaboration**

Hosts and fellows conduct research projects – exchanging knowledge and intellectual property.

6. **Impact**

Upon fellowship completion, participants continue to collaborate and strengthen their partnerships. Fellows use the skills learned abroad to teach and inspire a new generation of scientists in their home countries.
